SUPERVISORS HOLD REGULAR MEETING

The Board of Supervisors met in regular session Monday, June 16th, there being present Wm. H. Brown presiding, D. E. Blackburn, Jas T. Casey, Jos. M Francis and John MacBain.

M. F. Brown, chief of the motorcycle patrol, reported as follows:

Officer Lowans of the First township worked 15 days; no arrests.

Officer Logan of the Third township worked 15 days; 5 arrests, 4 convictions, 2 cases pending; one jail sentence and fines $55.

Officer Vallejo of the Fourth township worked 12 days; 7 arrests, 3 convictions, 5 cases pending; one jail sentence and fines $20.

Officer Brown of the Second township worked 15 days; 3 arrests, 3 convictions, 3 cases pending; fines $30.

The following communication from the State Highway Commission was accepted and referred to the supervisors of the Second and Third road districts:

Gentlemen—The secretary is instructed to advise you, in reply to the resolutions adopted by your honorable Board of Supervisors on the 26th day of May, 1913, stating that it is the sense of your honorable Board that the Highway Commission be requested to construct all portions of the State highway between San Mateo and the Santa Clara county line to a width of twenty-four feet that inasmuch as the apportionment of funds for the construction of the State highway in the various counties will not permit of a width wider than the specifications heretofore determined upon by the commission, they can not, in justice to other portions of the State, accede to your wishes as stated in said resolutions.

However, if the people of your county desire to meet the additional cost of constructing the highway in your county to the full width of twenty-four feet, this commission would be glad to co-operate to that end.

If your honorable Board of Supervisors find it expedient to take the matter up along these lines, the commission would be pleased to discuss the matter with you further.

Brown stated that he had conferred with the contractors who are constructing the State highway and had been informed that the additional width could be built for about $2000 per mile. Messrs. MacBain and Brown will meet with the Highway Commission with a view to having the work done by the contractor in charge of the highway, should the board decide to extend the width of the road.

A resolution was received from the Federated Improvement Clubs of San Bruno asking that in the construction of the new county highways San Bruno avenue be given an asphaltic surface of twenty feet, instead of sixteen feet, to correspond with the road that is to be constructed through South San Francisco.

The communication was accepted and filed for future reference on motion of MacBain, seconded by Blackburn.

A report was received from Public Administrator Plymire showing what disposition had been made of the effects of certain deceased persons.

A communication accompanied by a warrant for $3409.10, was received from the City of Hillsborough, the amount being that city's annual contribution to the Second road district in accordance with its agreement made with the Board of Supervisors at the time of the incorporation of Hillsborough. It was stated that a balance of $90 had been refused payment by certain taxpayers.

The clerk was directed to acknowledge the receipt of the warrant and to demand full payment.

A communication from the Panama-Pacific Exposition inviting the board to take space in the proposed counties' building and giving details as to cost, etc., was received and referred to the county commission.

Two other communications bearing on the subject, one from Los Angeles and one from Tulare, were referred to the same commission.

A communication from Watsonville inviting the county to participate in the apple show to be held in that city in October, was accepted and filed.

A petition signed by over one hundred residents of Belmont was received protesting against the issuance of any road house license in that vicinity. The petition was accepted and filed.

Tax Collector McSweeney reported a number of erroneous assessments which were referred to the assessor for correction.

The clerk announced that no bids had been received for the bonds of the San Mateo school district in response to the advertisement.

District Attorney Swart stated that he had sent copies of the notice to 250 bond buyers and had received replies from many of them that they were not in the market at this time for bonds.

He advised that the matter be laid over until the adjourned meeting on June 30th at which time the county bonds are to be sold and perhaps a solution of the matter would be found.

A communication was received from Mysell-Rollins Company, accompanied by a proof of the county bonds, which the board was requested to approve.

The job was not considered satisfactory and on motion of Blackburn, seconded by Casey, a committee consisting of Casey, Brown, and MacBain, was appointed to arrange for a suitable job.

It was ordered on motion of Casey, seconded by Brown, that the Courthouse committee purchase two safes for the use of the county treasurer.

On motion of MacBain, seconded by Blackburn, J. W. Carr was permitted to withdraw his bid for constructing a bridge in the Third district.

The following bids were received for constructing a reinforced concrete bridge across the Cordilleras creek in the Second township:

J. C. Baker, $2150; extra concrete per cubic yard, $9; time, 45 days

J. W. Carr, $2413.

E. Biggio, $2000; extra concrete, $10; time 30 days.

Eaton & Hall, $2295; extra concrete, $10; time 30 days.

Harry B. Morey, $1824; extra concrete, $12; time, 40 days.

On motion of Blackburn, seconded by Casey, the contract was awarded to Morey.

The following bids were received for constructing a reinforced concrete bridge on the Woodside-La Honda road near the Schilling place:

E. Biggio, $2000; extra concrete, $10; time, 30 days.

Harry B. Morey, $1761; extra concrete $12.50; time, 40 days.

On motion of MacBain, seconded by Casey, the contract was awarded to Morey.

A resolution was adopted on motion of Francis, seconded by Blackburn, calling an election in the Purissima school district on July 11th to permit the citizens to vote on the proposition of joining with the Halfmoon Bay highschool district.

A resolution addressed to the State Railroad Commission was adopted on motion of MacBain, seconded by Casey, asking that two railroad crossings be granted the people of San Bruno, one between Scott and Howe streets, and one on Huntington avenue.

Ditsrict Attorney Swart stated that John B. Farish was desirous of a hearing by the board at which he might present evidence that he had made sufficient improvement on a certain tract of overflowed land in the Third township which would entitle him to a U. S. patent to the property. Mr. Swart presented a resolution which was adopted on motion of Blackburn, seconded by MacBain, fixing July 21st as the date of the hearing.

District Attorney Swart was granted leave of absence from the State for a period of thirty days, on motion of Blackburn, seconded by Francis.

The hearing on the charges preferred against Maloney Brothers of violating the liquor ordinance was taken up.

A. J. McDonald, a detective in the employ of the district attorney, testified that he had purchased beer in Maloneys place on May 25th which was drunk on the premises. He said that other patrons were present at the same time and all were buying and drinking beer. The patrons were served by a clerk in the establishment and neither of the Maloneys was present.

Wm. Maloney denied that he had any knowledge that beer had been consumed on the premises. He said that he conducted a wholesale business.

MacBain was willing to drop the charge on condition that Maloney would promise not to again permit the law to be violated.

Maloney assured the board that he would obey the law and would also report any infractions that came within his notice. With this understanding the charge was dismissed on motion of MacBain, seconded by Blackburn.

P. L. Schuman, representing J. A. Bloch addressed the board requesting that a franchise to establish a water system in the Fourth township be advertised for sale.

District Attorney Swart stated that he was not yet prepared to give his consent to the undertaking. He was informed that there was objection among many of the people in the district to the sale of the water rights.

On motion of Blackburn, seconded by Francis, the matter was postponed one month.

On motion of MacBain, seconded by Blackburn, plans for a new bridge across the San Francisquito creek, on the State highway, to be jointly erected by this county and Santa Clara, were adopted and the clerk was directed to publish a notice calling for bids for building the bridge.

Adjourned for noon recess.

Afternoon Session

The board reconvened at 1:30 o'clock, all of the members answering the roll call.

The game ordinance presented at the last meeting was taken up and after discussion was adopted on motion of Blackburn, seconded by Francis. The ordinance will be found on the fourth page of this issue.

Casey stated that he planned to build School street from Colma to the ocean and wanted permission to have the work done by the day, working from time to time when he had funds to spare and his men and teams were not otherwise employed.

He was empowered to have the work done that way on motion of Blackburn, seconded by MacBain.

On motion of Casey, seconded by Blackburn, the surveyor was directed to estimate the cost of a new bridge on School street at Colma.

The surveyor reported that the Merrill bridge near San Gregorio was in an unsafe condition and in need of immediate repairs.

MacBain stated that he had also examined the bridge and found it to be in a dangerous condition.

It was ordered, on motion of Francis, seconded by Blackburn, that the surveyor prepare plans and an estimate for a new bridge at that location.

On motion of MacBain, seconded by Casey, it was ordered that two bridges in the Fifth township, north of Pigeon Point, be repaired at a cost not to exceed $50 each.

Walter Hempel and P.H. Greer, representing Pacific-Panama road race that is to take place July 4th between Los Angeles and San Francisco, addressed the board and asked permission to have the course laid out through this county. They offered to provide the necessary men to guard the roads and prevent accidents.

The matter was referred to the supervisors of the First, Second and Third districts, on motion of Francis, seconded by Blackburn.

Professor Wing of Stanford University, vice-president of the California Redwood Park Commission, appeared before the board and asked that this county join with Santa Clara and Santa Cruz counties in paying the cost of a survey of a road into the park, the total cost of which would be about $1000.

Blackburn advised delay as there was a bill awaiting the Governor's signature appropriating. $10,000 for a road from Pescadero into the park. In the event of it becoming a law this county would have to bear the whole expense of making the necessary survey. He moved that the chairman appoint a committee of three to report on the matter at the next meeting. The motion was seconded by Francis and carried.

The chairman appointed the following to act on the committee: Supervisors Blackburn and MacBain and Surveyor Neuman.

Adjourned to Monday, June 30,

Stuart Frank and Louis Genochio, of the Frank Tannery, left this week for a vacation. They will be absent six weeks.

CITY OFFICIAL PAPER

THE STRAIT JACKET WILL GO.

Assembly Bill No. 7, known as the strait jocket bill, of which Assemblyman Henry Ward Brown of this county is the author, was signed by Governor Johnson on the 16th instant and will become a law on August 10th next.

The bill reads as follows: "It shall be unlawful to use in the prisons or reformatory institutions of this State any cruel or unusual punishments; and punishment by the use of the strait jacket, gag, thumb-screw, shower bath or the tricing up of prisoners is hereby prohibited."

Mr. Brown first introduced the bill in the Assembly at the session of 1903. He also introduced it in the session of 1911. At both sessions he succeeded in passing it through the Assembly, but it failed to pass the Senate. At the last session Mr. Brown introduced it again and both houses passed it, the Senate having done so on the last day of the session.

It has been a long and hard fight to get this law adopted, as the prison authorities have heretofore strenuously opposed it. But it has been the means of restraining the use of cruel and unusual punishments in the state prisons and of practically abolishing the strait jacket.

Mr. Brown secured the appointment of a special committee of investigation by the Assembly in 1901, and it was from the testimony secured by that committee that the people of the state first learned of the methods of punishment used in the prisons and the terrible tortures inflicted upon the convicts. From the report of the committee on prisons and reformatory institutions of the Assembly of the session of 1911 we take the following figures showing the extent to which the strait jacket has been used in the past and how by reason of the fight made by Mr. Brown in the Legislature and by the force of public discussion and opinion, its use has year by year been discontinued. In San Quentin, in 1905, 270 men were punished by the jacket, serving altogether 7,911 hours. In 1906, 223 men were punished in the jacket, serving altogether 6,072 hours. In 1907, 164 men were punished in the jacket, serving 1,606 hours. In 1908, 134 men were punished in the jacket, serving 929 hours. In 1909, 73 men were punished in the jacket, serving altogether 279 hours. In 1910, 19 men were punished in the jacket, serving a total of but 39 hours. We have not at hand the figures for Folsom.

The report states that the jacket is especially injurious to the heart, lungs and kidneys. The punishment consists of placing the convict in a jacket made of heavy, strong canvas, cut so as to fit the body and shoulders of the wearer, along the edges of which there is a row of strong eyelets. The jacket extends from the throat down to and below the knees. On the inside there are two loops, or places where the hands of the wearer are placed, so that the hands rest upon and in front of the upper portion of the legs. The jacket is placed upon the convict, he is then laid down upon his face and the jacket, by means of a quarter-inch rope through the eyelets on the edge, is laced upon the body. The jacket, by this means, may be laced tight enough to inflict great physical pain, and even death, by impeding breathing and pressure on the heart and kidneys. Many men have been crippled for life in it, and the death of several convicts has been attributed to it. It is the most severe and dreaded punishment that is inflicted on the convicts.

Now that by the signing of this bill the strait jacket and other cruel punishments are no longer to disgrace the administration of our state prisons, Assemblyman Brown is entitled to great credit for the persistent and successful fight he has made for so many years in bringing about this reform.

ASSESSOR'S INSTRUCTIONS

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where his property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

No change can be made by the Assessor after he turns over his books to the Board of Supervisors on the first Monday in July. The Board then sits as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.

THE STRAIT JACKET WILL G

Assembly Bill No. 7, known strait jocket bill, of which Asse man Henry Ward Brown of this c is the author, was signed by Go Johnson on the 16th instant an become a law on August 10th

The bill reads as follows: "It be unlawful to use in the prisc reformatory institutions of this any cruel or unusual punishment punishment by the use of the jacket, gag, thumb-screw, showe or the tricing up of prisoners is h prohibited."

Mr. Brown first introduced th in the Assembly at the session of He also introduced it in the sess 1911. At both sessions he succ in passing it through the Asse but it failed to pass the Senate the last session Mr. Brown intro it again and both houses passed Senate having done so on the las of the session.

It has been a long and hard fi get this law adopted, as the pris thorities have heretofore strenu opposed it. But it has been the r of restraining the use of cruel an usual punishments in the state p and of practically abolishing the jacket.

Mr. Brown secured the appoint of a special committee of inve tion by the Assembly in 1901, a was from the testimony secure that committee that the people o state first learned of the metho punishment used in the prison the terrible tortures inflicted upo convicts. From the report of committee on prisons and reform institutions of the Assembly of session of 1911 we take the follo figures showing the extent to w the strait jacket has been used i past and how by reason of the made by Mr. Brown in the Leg ture and by the force of public di sion and opinion, its use has yea year been discontinued. In San Q tin, in 1905, 270 men were puni by the jacket, serving altogether 7 hours. In 1906, 223 men were ished in the jacket, serving altog 6,072 hours. In 1907, 164 men punished in the jacket, serving 1 hours. In 1908, 134 men were ished in the jacket, serving 929 h In 1909, 73 men were punished ir jacket, serving altogether 279 h In 1910, 19 men were punished ir jacket, serving a total of but 39 h We have not at hand the figure Folsom.

The report states that the jack especially injurious to the heart, l and kidneys. The punishment sists of placing the convict in a ja made of heavy, strong canvas, cu as to fit the body and shoulders of wearer, along the edges of which t is a row of strong eyelets. The jac extends from the throat down to below the knees. On the inside t are two loops, or places where hands of the wearer are placed, so t the hands rest upon and in front the upper portion of the legs. jacket is placed upon the convict, is then laid down upon his face the jacket, by means of a quarter-i rope through the eyelets on the ed is laced upon the body. The jack by this means, may be laced ti enough to inflict great physical pa and even death, by impeding brea ing and pressure on the heart and k neys. Many men have been crippl for life in it, and the death of seve convicts has been attributed to it. is the most severe and dreaded pu ishment that is inflicted on the co victs.

Now that by the signing of this b the strait jacket and other cruel pu ishments are no longer to disgrace t administration of our state prison Assemblyman Brown is entitled great credit for the persistent and su cessful fight he has made for so ma years in bringing about this reform.

SAN FRANCISCO BUSINESS MEN VISIT THIS CITY

One hundred and fifty members of the Chamber of Commerce of San Francisco and their wives visited this city Saturday and were pleasantly entertained by the Board of Trade. The visitors came down from the metropolis on a steamer and were met by smaller boats and landed on the deep-water wharf. Here they were taken into automobiles and given a sight-seeing ride through the city and suburbs and thence to Woodside, where they picnicked on the Hooper place. Later in the afternoon the visitors were taken through the university grounds and back to this city, taking their steamer home.

The party had its own band and the event was enlivened by some excellent music.

An opportunity was given the business men to view the city's water front and shipping facilities, which with the attractive suburban country that was shown them made their visit a pleasant and profitable one. It can not fail to be of benefit in the future.

Fifty automobiles were placed at the disposal of the party by local and nearby residents.

AUTO OVERTURNS IN CRASH: DRIVER KILLED.

Harold H. Worth, son of Mr. and Mrs. H. C. Worth of 1312 Golden Gate avenue, was killed Saturday evening near Uncle Tom's Cabin, on the San Mateo road, when the automobile which he was driving was struck by a north-bound machine containing M. Rosenthal of Tulare and a woman whose name is unknown.

According to Rosenthal's story, he turned his machine out to avoid some children skating in the boulevard, and unavoidably hit the other automobile, which was overturned.

Young Worth was caught underneath and was mortally injured, dying two hours later in the Red Cross hospital at San Mateo.

Worth was on his way to spend the week-end with friends in Mountain View. He was a graduate of the Lick school and had been associated with his father in the drayage business. He was 22 years old.

SAN BRUNO NOTES.

The Federated Improvement Clubs met Wednesday night and transacted much business. As the members are becoming proficient in civic affairs and are also directing every energy to that purpose, an inconceivable amount of business is being transacted and these efforts are bearing fruit. It has been found necessary to communicate with Washington and Sacramento in order to protect San Bruno in her rights pending incorporation, which will then place the town on a basis with power behind it that the club lacks. The peninsula is active. Valuable rights can now be quietly absorbed to the great detriment of San Bruno. The club is alert but can only erect temporary barriers and pass the same along to the incorporated town to be made permanent. A dinner will be given by the club on Saturday night, July 12th, and it already promises to be the biggest affair ever given in San Bruno. It is known that the people will be generous in the purchase of tickets, for considerable money must be forthcoming to meet the expense incurred. It is expected that all of the organizations will get behind this movement, for this symbol of incorporation means a physical, social and moral uplift of a community. Late returns indicate that 200 tickets have been sold by the committees. Large blocks of tickets were sold in Burlingame, San Mateo and at other points. These places are in favor of having another sister town along the peninsula.

The Yeomen, in selecting the grounds for a Fourth of July picnic, decided on the enclosure of Uncle Tom's Cabin. The committees appointed will undoubtedly lay their plans for a successful day's outing.

Speeding without lights caused the death of a member of an automobile party Sunday night on the State highway, as it clashed against another motor car. The accident occurred close to the M. E. church.

The Woodmen will hold their picnic in the pasture east of Huntington park next Sunday. All the women and children will meet a Carpenters Hall at 9:30, when wagons will be in waiting to convey them to the grounds. An elaborate program of races will keek everyone busy. The lucky ones will receive prizes. The Woodmen weather prognosticator, Mr. Merny, advised the committee to provide liberally for a warm day, and they have taken his word for it and W. O. Ford has charge, which means that a-plenty will be on hand.

Otto H. Tuska passed away Saturday at the Red Cross hospital. Deceased was a native of New York, aged 47 years, and five years ago settled in San Bruno, where he built a beautiful home. He leaves a widow and son to mourn his loss, and the many friends of the family tender their deepest sympathy in their bereavement. Interment was at Cypress Lawn. Mrs. Tuska and son wish to thank all for their kind sympathy and expressions of condolence.

SOUTH SAN FRANCISCO.

Members of the local chamber of commerce are considering a proposal looking to a material reduction in the number of saloons in the city, a subject originally broached at a conferrence with the city trustees. The general idea seems to be that the number of saloons should be reduced from the 24 now in existence to not more than 10. That the saloon keepers may be given a fair chance in the argument, they have been invited to meet with the Chamber of Commerce for a joint discussion of plans for the elimination of at least half of their number from the business.

A new 800-horsepower electric motor has been installed in the works of the Pacific Coast Steel Co.

Dr. H. G. Plymire and family are enjoylng a vacation outing touring Lake county in an auto.

SAN MATEO AND BURLINGAME.

The city council of Burlingame has under consideration an ordinance making it a misdemeanor, punishable by a fine of $100, to destroy the plants or shrubbery in the public parks of the city.

Much interest is being manifested by the Catholics of San Mateo in the reception to be tendered to Bishop Hanna under the auspices of the local council of Knights of Columbus on the evening of June 29th. A committee of local citizens has been named to assist in preparations for the event, which is intended to be one of general county interest.

Members of the local camp of Woodmen of the World are making plans for holding a big class initiation at San Mateo on the evening of July 11th. The camps of San Bruno and Redwood City have been invited to join in the affair and it is now known that a large number of candidates will be secured.

BELMONT NOTES.

FROM THE COAST SIDE.

From present indications the coming celebration of the Fourth of July at Halfmoon Bay will be one of the most enthusiastic events ever held in the county. Members of the committee in charge of the affair report assurances of the coming of visitors from every section of the county. A feature promised for the celebration is a monster barbecue.

The entire corps of teachers of the Halfmoon Bay highschool has been re-elected by the trustees for the next year.

The Halfmoon Bay vegetable cannery is putting up an immense pack of artichokes. The cannery is being run to its full capacity and the management is considering enlargement of the plant.

LOCAL BOARD OF TRADE HOLDS BOOSTER MEETING

While the attendance at the regular meeting of the Redwood City Board of Trade last Tuesday evening was not as large as it should have been, what was lacking in numbers was fully made up in the enthusiasm of those present. From the opening of the meeting until its close, the universal sentiment was one of "bost, and boost for Redwood City," with the expression of a firm faith that the cheif necessity of the hour was a fair presentation of conditions as they actually exist.

Reports of Secretary Kincaid indicated that the campaign for the enlargement of the membership of the organization was meeting with flattering success. The record shows that during the past month about 30 new members, several of whom gave promise of active work, had been added to the roll.

The principal subject under discussion was the development of Redwood City and the best means of making known our advantages to manufacturers. Mr. Graham suggested the mailing of circular letters by the thousands. If by this plan we succeeded in securing one factory we will be well repaid.

Mr. Sears speaking from personal knowledge recommended that in the distribution of such literature, particular attention should be given to the middle west and far east. Few people realize how vague is the knowledge that exists in those sections regarding California. We are looked upon as a barren country, unproductive and undesirable. When the canal opens the possibilities of this State will have vastly increased. The great eastern concerns, notably the automobile makers, will be enabled to ship their products here at reduced rates, and here it may be assembled and supplied to coast buyers. Mr. Sears, referring to Redwood City, said that there were thousands of eastern cities whose natural advantages were not to be compared with those of Redwood City and there was no reason why we should not forge ahead.

Mr. Finkler spoke forcibly on the same subject and offered his services in any way that would promote its prosperity.

President Chilcott stated that he had learned that the Kelly-Springfield Automobile Company was desirous of locating close to San Francisco, preferable on the peninsula. He had addressed a letter to the company inviting them to investigate the advantages of this city and had received a favorable response.

The president stated that the executive committee would meet next Monday evening at which time this subject would be more fully discussed. He invited all to be present

The Jubilee Mission now going on at the Church of the Nativity is meeting with great success, the little edifice being crowded every night by a devout congregation. All the speakers that appeared on the evenings of the week were eloquent and forcible, delivering powerful sermons that were listened to intently by the big congregations. There will be no sermon this evening, but confessions will be heard from 7 o'clock until late in the night in order to give all an opportunity to attend communion on Sunday. The mission will close at the 10:30 o'clock mass tomorrow.

David Roche and his daughter Margaret, the well known educator, leave next week for the wilds of Mendocino county to spend a two-weeks' vacation.

The Gentlemen's Sodality of the Church of the Nativity will receive communion in a body at 8 o'clock tomorrow morning. All members of the Sodality are urgently requested to respond.

A baby boy was born to Mr. and Mrs. E. Covington Pringle at University Heights on Wednesday evening. The Pringles are occupying Camp Bello for the summer. The little visitor is a welcome guest of the happy home.

The Palo Alto Times is in error when it says that Andrew McLachlan, who was married last Monday to Miss Helen Fitzhenry, was the first child born in Palo Alto. This distinction belongs to Miss Rose Lynch, a clerk in the First National Bank at Redwood City. Shortly after the laying out of the tract by Timothy Hopkins, who purchased the property from the late Alfred Seale, Mr. Hopkins erected a building near San Francisquito creek. This was the first house built at Palo Alto and it was here that Miss Lynch saw the light of day shortly afterwards. The young lady is very naturally proud of the distinction and does not want to be robbed of it through error.

Miss Ethel McEvoy will leave next week for Yosemite Valley to spend three weeks of her vacation,

Miss Jean Bruce, a professional nurse of the Lane hospital of San Francisco, is here visiting friends.

The ladies of Trinity Guild entertained the ladies of St. Peter's Guild of Redwood City on Thursday. All had a delightful time enjoying the refreshments and entertainment furnished by home talent.

We are creditably informed and requested to state that the Bear Gulch Water Company has perfected arrangements to ameliorate the present unsatisfactory conditions of the water at Menlo Park and steps are now being taken to that end.

State officers raided the China houses and homes of the Chinese late Thursday night and found a great quantity of opium. Several arrests were made. It is unlawful to have opium in one's possession and a big penalty is attached to the crime.

Traveled from West to East

Mr. and Mrs. J. E. Ensor arrived home yesterday from a four-weeks' trip East. During their absence they visited Mr. Ensor's old home in Texas, also Boston, New York and New Orleans. One interesting experience was a trip to an underground community in a coal mining district. Strange to relate, there were brilliantly lighted streets, electric tramways, a subterranean stream of running water and delightfully pure air. At New York they met Mr. Lon Cook's brother, whom they had never seen but immediately recognized as he was Lon Cook's perfect double, and other relatives. Mrs. Ensor thought New York City was too noisy and wondered if that was what the San Francisco-San Mateo peninsula was coming to as a result of the Panama Canal completion. It goes without saying that the Ensor's had a most delightful time, yet were glad to get back.

YOU MUST PLAY FAIR IS WARNING

City Council Makes it Plain that Strict Observance of Local Saloon Regulations Will be Insisted Upon

"You'll have to play fair if you want to stay in the game," was the purport of the notice served on the proprietors of the 21 saloons of the city at the meeting of the council Monday evening when their annual applications for permits to continue in business came up for consideration. While no fault was found with the conduct of the majority of the places and all were finally granted the desired renewals of licenses, this action was not taken until Chairman Merrill had taken advantage of the occasion to especially criticise the conduct of at least two of the places and to voice a strong sentiment of caution to the remainder. In stating his objection to the conduct of the two which he especially criticised, Chairman Merrill intimated that while he personally could not vote for the renewal of the licenses of these places, his objections were not sufficiently strong to justify his urging his colleagues to join him in the refusal. The remaining members of the board, all of whom were present, joined with the chairman in the general demand that the keepers of saloons must see to it that the laws governing the business were strictly observed.

City Treasurer Towne submitted his usual monthly report of the condition of the city funds. According to the report the general fund is again overdrawn, the deficit being $776. The water fund was shown to be in an excellent condition, having a balance of $2440 to its credit.

According to the report of Marshal Coleman, the receipts for the past month, all of which came through his office, were as follows:

Water connections	$60.00
Water rates	1143.35
Sewer connections	10.00
Tree planting	125.60
Miscellaneous licenses	21.65
Taxes	78.50
Street improvements	27.65

In response to the call for bids for a new street sprinkling wagon three San Francisco firms submitted bids, in the figures of which there was but little variance. In order that the best wagon, rather than the cheapest price, might be secured the bids were referred to Trustee Hynding, chairman of the street committee, and Superintendent of Streets Dickey to investigate and report at the next meeting.

The contract for sprinkling the streets was awarded to George Alvis at a rate of $7.95 a day for the two wagons, his being the lowest bid. The only other bid submitted was that of J. W. Paulsen, whose figure for the same work was $8.44 per day.

Because his work during the past year was strongly recommended by Superintendent of Streets Dickey, C. H. Pickett, who has had the contract for sweeping the streets during the past year, was given a renewal of the contract, although his bid for the work was considerably above that of one of his competitors, the figures being as follows: J. B. Smith, $60 per month; Pasquale Bailo, $45 per month; C. H. Pickett, $54.70 per month. While the bids were under discussion D. R. Stafford added to the recommendation of the superintendent of streets the commendation of the business men for the manner in which the work had been done by Pickett. The sentiment of the trustees seemed to be that as the superintendent of streets was responsible for the work his recommendation should be heeded and the contract was given to Pickett by a unanimous vote.

Street Superintendent Dickey presented an extensive report of his recent trip of inspection over the streets in the southern portion of the State, during which he explained some of the new methods of constructing oiled macadem roadways with the use of Roadamite Cement, the product of the Santa Maria Oil Fields, a material simlar to that provided for in the specifications for street work soon to be commenced in this city. A particularly interesting feature of this report was the statement that the owners of this material had made the offer to reconstruct a considerable portion of some macadam streets of the city as a demonstration at a merely nominal cost. In order that this offer may be taken advantage of the Street Superintendent was instructed to prepare necessary specifications for the repair of Arguello street and the macadam portion of Main street, or what was formerly known as Mound street.

At the suggestion of Trustee Deleau contestants in the Los Angeles-San Francisco automobile race to be held July 4th, were given permission to pass through this city without regard to the speed limit. For the protection of the public the streets to be selected will be closed to general traffic during the time of the race, announcements of these to be made later. Marshal Coleman was given authority to deputise such assistance as may be necessary for the occasion.

In order to expedite several matters of pending business it was decided to hold an adjourned meeting Monday evening, June 30th.

Plaintiff's horse was killed the rig demolished and the harness badly injured. The complaint alleges the damage was done through the carelessness and negligence of the driver, as he was going at a high rate of speed and was not on the right side of the thoroughfare. Reports Somewhat Exagerated.

The accident that occurred on the Middlefield road near the Seminary Wednesday evening seems to have been greatly exaggerated by the city press. In an interview with Carl G. Klevershal of Mayfield it would seem that while he was opposite the Seminary the accident occurred. Owing to the cluster of trees at that point and the bad condition of the oiled road, Mr. Kleversahl could not have seen the team that was coming in an opposite direction. The deep chuck-holes in the road kept him constantly on guard in running his motor truck and he was on the side of the road most of the way from the Seminary to Palo Alto bridge. He did not observe the team that was struck. The city papers had it that the matter occurred near the Flood residence, and that another team was struck and a man severely injured. This is not so, as Mr. Kleversahl states that he was not coming from Redwood at all. Kleversahl was arrested and was released on a thousand dollar bond.

Paint Keeps the Home Bright

A LITTLE paint here, a touch of enamel there, a brushful of varnish yonder—everyone can see a dozen or more such opportunities for brightening and beautifying the home.

Perhaps it's the outside of the house that needs protection from the ravages of the weather; perhaps it's a chair, or dresser, the floor or woodwork that has become worn and shabby, or perhaps it's the family carriage, the farm wagon or the lawn swing that has ceased to be a source of pride.

No matter what it is that has become marred and unsightly from age and wear, there's an Acme Quality paint, enamel, stain or varnish that will exactly fit the need. We are agents in this vicinity for

ACME QUALITY
PAINTS AND FINISHES

—the most scientifically prepared, the most satisfactory in appearance and wear, made in the largest paint and varnish plant in the world. Simply tell us what you want to do, ask for the proper Acme Quality goods for that purpose and you are sure to get the best that can be made.

The Acme Quality Painting Guide Book tells what Acme Quality Paint, Enamel, Stain, Varnish or Finish to use, how much will be required and how it should be put on. It not only enables you to tell your painter or decorator exactly what you want, but makes it easy for *you* to refinish the many surfaces about the home that do not require the skill of the expert—the jobs that a painter would not bother with. Ask us for a copy. *It's Free.*
